Innovative Technologies

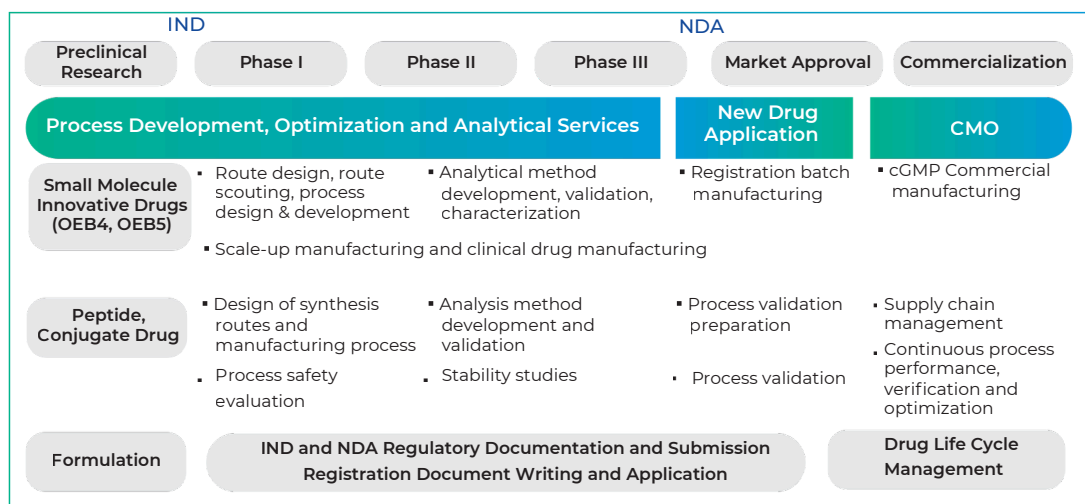

- Chiral Catalysis Technology
- Continuous Flow Technology
- Fluorine Chemistry
- Tag-assisted Peptide Synthesis
- Biocatalysis
- Photocatalysis
- Solid-State Research
- Separation Technology
- Spray Drying
- Sustainable & Green Chemistry
- Solvent Recycling

Jiuzhou Pharma has once again been awarded the EcoVadis Gold Rating, reflecting our continued commitment to sustainability and strong ESG performance. We continue to work with global partners to build a more sustainable pharmaceutical value chain.

From Preclinical Development to Commercial Manufacturing

Small Molecule Manufacturing Experience

- Advanced Manufacturing Capabilities (cryogenic & high-temp reactions)
- International R&D Team and Global Production Network
- Specialized and Potent Compound Handling (including OEB-5)

Peptide Manufacturing Expertise

- SPPS, LPPS, Hybrid, and Convergent Synthesis Experience
- Sustainable and Green Chemistry (Proprietary Tag-assisted LPPS)

Development Services

- Custom Synthesis
- Synthesis Route & Process Development
- Analytical Method Development & Validation
- Extensive On-site Analytical Instrumentation

cGMP and R&D Kilo Labs

- Total Synthesis Capacity: 9,950m³
- Jet Mill for Particle Sizing
